

OCEAN EXPLORERS

Wonderful Workshops for People who Love the Sea

Perfect for curious minds ages 6 and up.

Drop in on summer Saturdays at 10:30 am and explore the ocean with hands-on workshops. Ocean Explorers is a mini marine biology club. Whether you want to come to all eight workshops or just stop by for one, we'll be happy to see you there! Suggested donation of \$2 per Explorer. All donations support sea turtle research and outreach programs. Perfect for curious minds aged seven and up, but younger Explorers are welcome too. The Sea Turtle Centre is on the Halifax waterfront near the base of Salter St.

July 8

SCIENCE OF THE SEA

Become an oceanographer and investigate one of the most fascinating things in the ocean: sea water. Join us for hands-on science experiments and crafts.

July 15

HARBOUR CREATURES

Come and meet the inhabitants of Halifax Harbour! Our friends from the Back to the Sea Society will be joining us with the touch tank full of incredible marine animals.

July 22

OCEAN ART

Sea turtles can't always tell the difference between the jellyfish they feed on and plastic floating in the ocean. Help keep plastic out of our oceans by making your own reusable tote. All art supplies provided, and you'll go home with an awesome new bag. This workshop is **sponsored by Andy Filmore**, MP for Halifax.

July 29

AQUACULTURE

Old Macdonald had a farm, E-I-E-I-O. On that farm he had some... oysters?! Underwater farming changes the way we interact with our ocean. Discover how we grow food in the sea at this interactive workshop.

August 5

TROPICAL TURTLES

Have you ever met a real superhero? The Nature Seekers are a group of heroes from Trinidad who use their powers to save endangered turtles. Some of the Nature Seekers have travelled to Halifax from the Caribbean to share their stories about working with turtles on tropical beaches.

August 12

ADAPTING TO LIFE UNDERWATER

Sea creatures have amazing ways of adapting to life in the water: some have spines, some have tentacles, and some glow in the dark. Come check out the fantastic ways they manage life in the ocean.

August 19

OIL SPILL ALERT

Oil and water don't mix. Join us to learn both about what happens to the marine environment when oil spills into our oceans and about how we try to contain or clean it up.

August 26

YOU AND YOUR OCEAN

Everyone can make choices that will make the ocean cleaner, safer, and healthier for the species that live there. Little things you do can make a big difference. Come find out how you can help.
